

Description

Music. Apps. TV. Internet. All available at the swipe of a finger on the intuitive touch screen of each Cirrus™ console. The 10.1" Cardio consoles, are derived from extensive research into what captivates and transforms workouts.

The 10.1 Cirrus™ touch screen console provides a compelling workout experience with advanced connectivity. The 10.1" integrated LCD multi-touch screen features entertainment options, enhanced interaction, internet connectivity, workout tracking and more.

Actual product specifications may differ due to manufacturing requirements. Pulse Fitness reserves the right to make changes to its products and services, where it considers necessary.

10.1" Cirrus™ Cardio Console

Cardio Console

Connection

Optionally, Apple® devices can be connected directly to the console, which lets exercisers, charge their device, access their music, videos, fitness apps and track their workouts through the PulseMove™ Tracker app.

Entertainment Hub

Internet connectivity allows exercisers to use their favourite media and connect with apps and weblinks like, Angry Birds™, Chrome™, Facebook®, MyZone®, Netflix®, Twitter® & YouTube™ during a workout—just like they would when they're not working out.

Engaging Courses

E-Scape interactive courses let exercisers run through terrain in New Zealand like a beautiful beaches or bike ride on their rugged Mountain roads. Vivid scenery can be enhanced by changing the incline or resistance to match the terrain.

Operation

Mouldings

The console is surrounded by an injection-moulded casing, these are durable, high impact thermoplastic housings, which seal internal components, protecting the vital parts against dust and sweat, and are easy to wipe clean.
