

OBK830 | FC FITCLUB UPRIGHT BIKE

ADJUSTABLE SEAT

MAGNETIC RESISTANCE

ADJUSTABLE PEDAL STRAP

LCD MONITOR TO TRACK WORKOUTS

The Orbit FitClub Exercise Bike is Lightweight, Compact and Easy to Move, Making it the Ideal Piece of Home Exercise Equipment. Engineered with 8 levels of silent magnetic resistance, it features ultra smooth and silent operation allowing you to exercise without disturbing those around you.

ADJUSTABLE PEDAL STRAP

Adjustable toe strap for standard foot wear, we have eliminated slip-off and up-lift.

MAGNETIC RESISTANCE

The Magnetic Resistance has 8 different settings, Adjusted with an easy to use tension control dial.

LCD MONITOR TO TRACK WORKOUTS

Monitor your progress with a built in performance monitor. You can track your speed, time, distance, calories and even monitor your heart rate. Battery powered means no cords needed. No pressure required on hot keys to set and change your readouts. Simply place your finger above the key for instant response. Integrated tablet / phone holder.

ADJUSTABLE HEIGHT SEAT

Exercise for as long as you like in comfort with the oversized, super thick, super comfortable, cushioned seat. Eight vertical seat adjustments to suit all user heights.
