

# OBT5650SH COMMERCIAL BUNGEE REBOUNDER

ADJUSTABLE CUSHIONS ON HANDLE

SAFETY COVER ON BUNGEE CORDS

UV TREATED NYLON MAT

FOOT PLACEMENT MARKINGS

*The Orbit Commercial Bungee Rebounder's Amazing Suspension System Fully Absorbs the Impact of your Landing, Storing it as Potential Energy and Redistributing it Back into Thrust, Making for an Exceptional Cardio Bounce Zone for Improving Overall Fitness and Health*

*While cushioning the impact on your back and joints, the Orbit Commercial Bungee Rebounder's robust, elastic cords store the energy absorbed during deceleration and return it almost in full, accelerating you upwards for a dynamic, gentle bounce cycle.*

## ADJUSTABLE PADDED HANDLE WITH CUSHIONS

With eight height adjustment, the padded handle provides increased safety and stability for users and increases the range of exercises including pilates moves for toning. The attachment for the handle goes all the way to the floor for extra stability and for more robust workouts for bouncers. rebounder features sit up cushions with three adjustments to suit most bouncers, which allows for ab work while keeping your back and tailbone off a hard floor surface.

## STURDY COMMERCIAL CONSTRUCTION

Engineered with durable, high tensile steel tubing and UV treated nylon mat for commercial grade strength. This rebounder is built to be reliable.

## HEALTH AND SAFETY

Fitted with a safety cover over the bungee suspension system provides maximum safety for legs, feet and ankles, for all jumpers of all ages\* and sizes. Treat yourself to a full body tune-up. Rebounding boosts circulation to reduce cellulite, strengthen hips, legs and glutes. Muscles around joints trained with gentle rebounder exercise increase joint strength. \*Supervise children when using the rebounder.
