

X7A SKYLINE TREADMILL

CHEST STRAP

CONSOLE

AUTO INCLINE

BLUETOOTH APP CONECTIVITY

With the Skyline X7A Treadmill you can get all the benefits of a commercial treadmill in your own home. A powerful motor and an extra-large running surface allows you to work out to the fullest. Get to speeds as high as 20km/hr within seconds with 15 levels of automatic incline.

MODERN CONSOLE

Cycle through several combinations of displays with the 3 LED display windows, and keep track of your progress with the DOT matrix window, set up to look like a track. Use the Quick keys to quickly move to preset speeds and inclines. A safety key with tether will keep you safe and the large storage tub area will keep your stuff and drinks secure, yet within easy reaching distance. Auto shut off when no user detected after 5 mins. Connect any device via Bluetooth to follow your favourite tracks or play your tunes through built-in speakers. Get real time feed back from apps like ZWIFT and KINOMAP. Charge and power your devices with the USB on the side of the console. Stay entertained with the tablet/phone holder, let your workout fly by and get into your zone.

HIGH POWER AC MOTOR

Implemented with a large 2.5CHP(5HP Max) AC motor, designed for prolonged use without making a lot of noise. A smooth running experience, you can feel the difference with every stride.
