

SPRING ARM SYSTEM

Proprietary spring arms have been set up to replicate punching a focus mitt, by offering a slight give in the pads on impact.

HEIGHT ADJUSTMENT

Featuring independently adjustable upper and lower shuttles makes for a perfect fit from 5' (152.4cm) to 6'10" (208.28 cm)

ANCHOR HOLES

The Boxmaster Tower can be bolted directly into concrete flooring. However if this type of flooring is not available a Boxmaster Platform Base is required.

INJURY RISK REDUCTION

Greatly reduces the risk of injury to users or training partners while delivering an unparalleled boxing experience.

NUMBERED TARGET PADS

These allow any punch or fight combination. Great for instructors to yell the numbers to the punch combination they are working on.

QUALITY FINISH

Long lasting, safe, commercial grade usage. High tensile steel with black powder coat. Robust upholstery.

TOTAL BODY CONDITIONING

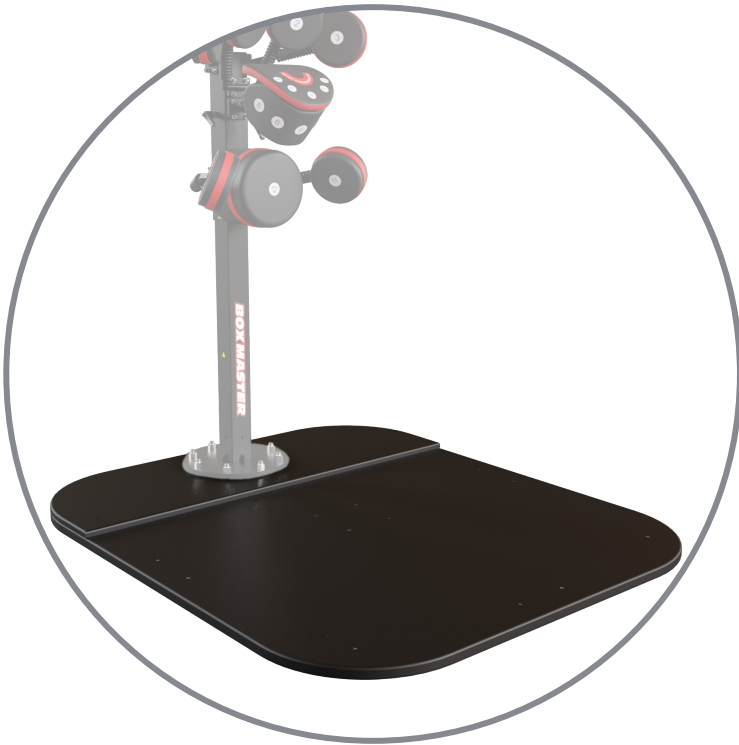

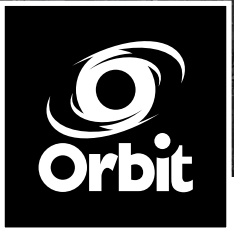

Based on a 7 round, 30-minute session.

RAI FAZIO'S FREE TRAINING APP

Fantastic training app fully demonstrates how to use the BoxMaster. Simply scan the QR code on unit.

USAGE	Commercial and Domestic
DIMENSIONS	L 76cm x W 84cm x H 208cm (Height Adjustable)

BOXMASTER PLATFORM BASE

The base is constructed from high performance abrasion resistant coated wood panels and provides an alternate to securing Boxmaster directly into the floor. 1 inch recess for standing area. Ideal for non concreted flooring.

USAGE	Commercial and Domestic
DIMENSIONS	W: 180cm (70.86") L: 210cm (82.67") H: 6.1cm - 3.6cm (2.4" - 1.4")

BOXMASTER KICK PAD

The kick pad is an ideal add on for kick-boxers and MMA students. Adjustable in height with tower, the kick pad caters for all users. Made from ripstop material, these are filled with a high density shock absorbing eva foam.

USAGE	Commercial and Domestic
DIMENSIONS	L 69cm x W 69cm x H 57cm
