MANUAL

ī

The Orbit Powerstride OBE8731T is so Smooth, It's like Walking in Mid-air. The Powerstride Elliptical provides a longer, smoother stride while reducing stress/strain on your legs. With a combined upper & lower body workout burns more calories/fat in less time. With this combined all body workout there is no other fitness equipment that simultaneously works as many muscle groups.

# **SILENT MAGNETIC RESISTANCE:**

To burn more calories, increase intensity and improve muscle tone, adjust the smooth, frictionless resistance to your desired intensity without interrupting your workout. Choose 16 levels of resistance for optimum performance.

#### **LARGE 18 INCH STRIDE:**

The longer stride ensures a comfortable and effective session with a reduced perceived rate of exertion. You are actually exercising harder than you would normally perceive. You burn more calories than a shorter stride with the same intensity.

## SPORTS COMPUTER WITH TABLET CRADLE:

Sports performance computer with tablet holder that doesn't cover your workout display screen.

## **ANTI-SLIP FOOT PLATES:**

The anti-slip foot plates accommodates users of most sizes and reduces the chance of foot numbness during longer workouts. Biomechanically engineered for comfort, the plates are syncronised to the motion of the upper body handlebars, providing a natural upright, low impact, total body workout.
