

SynergyDRAX – TREADMILL w/ SpeedSync (SD28-22SX)

SynergyDRAX electronic cardio machines offer leading edge technology, superior biomechanics and are loaded with unique features which revolutionise the walking, running, riding and interactive experience, as well as incorporating or exceeding all the high-end features offered by any of its competitors.

KEY FEATURES

- **SpeedSync Auto Speed Control Technology - patented automatic treadmill speed control system (SpeedSync)** allows users to seamlessly adjust their speed up to 28 km/hr without having to distract and unbalance themselves by reaching for buttons or levers whilst in motion.
- Embedded 22 inch HD Digital TV
- Smart Device Mirroring and Internet Interface - Allows the user to mirror the screen of their own personal 'smart' device directly onto the treadmills large embedded LCD HDTV screen (supports both Android or IOS devices).
- Floating Deck Technology - patented Floating Deck Technology reduces shock load between the user and the treadmill, making the whole user experience safer and more comfortable, whilst taking unnecessary shock load away from the treadmill itself.
- Patented Dual Incline System - a game changer from a maintenance perspective. Treadmill incline systems have historically been one of the more problematic areas for treadmill reliability up until now.
- 0.8 – 28km/hr
- 22% incline as an option (16% standard)

DIMENSIONS

- 2170 L x 950 W x 1650 H (mm)
