

SynergyINFINITY – LEG EXTENSION (SI-1-LE)

SynergyINFINITY utilises patented bilateral stability control technology, or unilateral operation (with converging/diverging compound arcs), across the entire range of aesthetically appealing pin loaded machines, encompassing uncompromising biomechanical integrity, engineering excellence, intuitive functionality, low profile design and space efficient foot prints.

KEY FEATURES

- Patented Bilateral Stability Control for balanced strength development
- Variable resistance cam to provide greater resistance throughout the range of motion
- Range of Motion adjustment for optimal pre-stretch
- Centre drive mechanism prevents torsional flexion and allows easy, user friendly side entry
- Raised and contoured lower posterior thigh support padding to ensure maintenance of correct knee alignment during movement
- Gas assisted back rest adjustment
- Adjustable tibia pads to suit all user heights
- All adjustments & weight stack easily accessible from seated position
- Colour coded instructional placard
- Adjustable feet to ensure the machine can be perfectly balanced on any floor surface
- Low profile weight stack frame – Shrouds with a choice of colourful life style graphics or personalised image/logo to suit
- All structural metal frame parts range from a minimum of 4mm through to 12mm thick
- Ultra-heavy weight stacks

DIMENSIONS

- 1280 L x 1318 W x 1389 H (mm)
